

"Making a Plan"

Name:

It's good for everybody to identify, define and work on the goals we wish, including the kids, so this time we are going to train their ability to set their goals and achieve them. This will provide them the habit and discipline of working every day with their minds on achieving their goals.

Achieving a goal is one of the most important skills someone can learn, and the sooner they do, the more possible it will be to achieve successful results on their lives. The key to achieve a goal is planning. The development of the following mission will be as much entertaining for both younger and older children.
