"Learning from mistakes"

MISSION DESCRIPTION

Frustration is an emotion we usually experience facing a failure when a hope, an expectation, a project or a desire are not fulfilled or accomplished. The way we manage the frustration will decide the way we feel or act. We might give up and surrender or, on the contrary, we might go for persevering trying to improve for the next time.

The development of the following mission might specially help those perfectionist children, who have problems tolerating their own mistakes and controlling their own emotions when someone proves them wrong.

AREAS

LEVEL OF DIFICULTY

AGE : 4 to 12 years old

DURATION: 24 days

TIPS AMOUNT: 15

CRYSTALS : 12

HOW TO USE THE MAP

When you are about to finish every Tip, you should award them with a particular amount of points. You will see how in every Tip it will be pointed out exactly how many.

Then you should go to the corresponding mission map and write down the points (or colour the star, as you prefer) in the Tip number you have already completed.

REMEMBER...

The more immediate you do it, more chances there will be they repeat the right behaviour. You shall only award them with points when the mission goal you agreed in advanced is been achieved, not otherwise.

Let them write down the points or colour the star, so they'll be aware of their improvements and will be more motivated to go on until the end.
