

"Making a Plan"

MISSION DESCRIPTION

It's good for everybody to identify, define and work on the goals we wish, including the kids, so this time we are going to train their ability to set their goals and achieve them. This will provide them the habit and discipline of working every day with their minds on achieving their goals.

Achieving a goal is one of the most important skills someone can learn, and the sooner they do, the more possible it will be to achieve successful results on their lives. The key to achieve a goal is planning. The development of the following mission will be as much entertaining for both younger and older children

HOW TO USE THE MAP

When you are about to finish every Tip, you should award them with a particular amount of points. You will see how in every Tip it will be pointed out exactly how many.

Then you should go to the corresponding mission map and write down the points (or colour the star, as you prefer) in the Tip number you have already completed.

AREAS

Impulse Control

Self-Control

LEVEL OF DIFFICULTY

AGE : 4 to 12 years old

DURATION: 24 days

TIPS AMOUNT: 15

CRYSTALS: 18

REMEMBER...

The more immediate you do it, more chances there will be they repeat the right behaviour. You shall only award them with points when the mission goal you agreed in advanced is been achieved, not otherwise.

Let them write down the points or colour the star, so they'll be aware of their improvements and will be more motivated to go on until the end.
